

FRONTENAC HIGH SCHOOL

STUDENT HANDBOOK

2022-2023

ADMINISTRATIVE ORGANIZATION

The Frontenac Board of Education consists of seven members, each elected for a four year term. The Board establishes policies and regulations for the Frontenac School District, hires personnel, and oversees the operation of all public schools in the community. One of the major functions of the Board is to employ a competent, professional educator to serve as Superintendent. The Superintendent of Schools serves as an educational advisor to the Board and represents the Board in the day-by-day operation of schools.

At Frontenac High School, a building principal is employed and given the authority and responsibility for administering curricular and extracurricular activities. The principal is aided by a faculty of qualified teachers, a counselor, and an athletic director, who are employed by the Board each year. These individuals are given the responsibility and the authority for properly educating the high school students of Frontenac.

PRINCIPAL'S MESSAGE:

Frontenac High School upholds the expectations of the school district and the community that every child in the Frontenac community should have the benefits of an exemplary education. In our building we are dependent on the conduct, character, and achievements of our students.

We have outstanding educators and staff who are committed to student success and the advancement of the building's vision. The administration encourages and expects excellence from students and staff. Frontenac High School recognizes the importance of a strong connection between the community and its schools. We strive to develop and maintain the community's allegiance to and ownership in the school.

Our school is committed to providing a diverse and balanced curriculum that stimulates intellectual curiosity and growth. Our curriculum includes a core set of basic skills, as well as, courses in fine arts, vocational fields of study, and other enrichment opportunities. Finally, Frontenac High School ensures that we will provide a safe and orderly, yet inviting, climate that encourages learning and protects instructional time.

Have a great year,

Brandy Stanley, FHS Principal

COMPUTING GRADE POINT AVERAGE AND CLASS RANK:

Grade point average and rank in class for seniors will be computed as follows:

- Grade point average will be calculated on a 4.0 basis.
- For the purpose of graduation recognition, seniors will have their rank and grade point average computed at the end of the first semester of their final year. Final class ranking will be determined after graduation.

CLASS LOAD REQUIREMENTS:

A student must be enrolled in eight subjects (accredited courses) in high school. Students must pass six (6) classes of full unit weight to be eligible for extra-curricular activities. Student aide, office aide, and peer tutor do not count toward the six credits.

SCHEDULE CHANGES:

Teaching assignments, class offerings and the master schedule are all developed in the spring. It is critical that students do a great deal of serious planning when they enroll in courses for the next year. After individual student schedules have been completed, changes will be made only if the request conforms to one of the following reasons:

- Extenuating circumstances not anticipated at the time of enrollment;
- The teacher's prognosis of continued difficulty because of lack of background or ability (Lack of interest or effort does not apply); or
- Administrative changes to balance class loads.

Students who wish to change their schedule after spring enrollment is complete must schedule an appointment with the counselor in August before school starts. One or both parents may be asked to attend the meeting.

STUDENT CLASSIFICATION:

To be classified a sophomore, a student must earn six (6) units during their ninth grade year. Before a student will be classified a junior, a total of twelve (12) units must be earned. Senior classification requires a student to have completed a total of twenty (20) units. Students who are attending high school for a fifth year because of extenuating circumstances will be classified as special students.

REPORT CARDS AND GRADING:

Student progress is indicated on reports to parents by letter grades (A-F) for all subjects each semester. The semester grade is accumulated from classroom work and from the comprehensive tests. The semester grade is a reflection of the semester as a whole. Grade cards will normally be distributed the week following the end of each marking period.

Parents will receive reports concerning their child's progress at the end of each nine-week period. Parents may check their child's progress at any time on PowerSchool. If you do not have your child's PowerSchool access information, you may contact the school to receive the log-in information.

Teachers at Frontenac High School are individually responsible for developing a fair and equitable system for evaluating student work. Letter grades are assigned for each course at the end of each semester.

DUAL CREDIT POLICY:

Juniors and seniors at Frontenac High School may receive dual credit for classes pre-approved by the administration that are offered by a college or university. A three to five hour college class will be the equivalent of .5 credit at the high school. No high school credit will be given for classes less than three hours. Dual credit will only be granted for courses that are taught during the school day. Dual credit will not be permitted for night and summer classes. Students may take those for college credit. Students must meet the following criteria to enroll in a college course:

- The student must be enrolled in a curriculum that would ensure they are adequately prepared for the specific training program.
- The student will maintain regular attendance and punctuality, avoid discipline problems, and make grades commensurate with his/her ability.
- Students must have a 3.0 grade point average in the subject area, meet requirements for vocational courses, or permission from the principal before they can enroll in the course.
- Students must meet College Readiness Benchmark scores on the ACT or have no less than 80% in all courses in the subject area to enroll in College Algebra and College English.
- All tuition costs, books, fees, etc. will be paid by the student.
- The student must meet the criteria of behavior established for these courses. The final decision for enrollment in these courses rests with the administration.
- Final approval for granting or denying dual credit for courses will rest with the administration. Students will be informed in advance if a course qualifies for dual credit.
- All classes that are not taught on site, by a qualified instructor will be classified as a high school elective.
- All grades in these classes count toward class rank and the student's G.P.A. If a student drops a college course during the semester, the grade will be figured as an "F" in the student's G.P.A.

EARLY GRADUATION:

Students who complete all state and local graduation requirements may request permission to graduate early. A student who wishes to graduate from high school early may request permission to do so. The student and parents shall consult with high school administrative and/or guidance personnel in order to develop a graduation plan. The board shall approve or deny each request based on the circumstances of the individual student. The student's request shall be in writing, addressed to the superintendent, state the reasons supporting the request, and include a copy of the graduation plan and a letter of support from the student's parents. The letters of request shall be sent to the superintendent who shall forward them to the board .

VIRTUAL STUDENTS

Virtual students who wish to participate in extracurricular activities at FJH and FHS will need to meet the following criteria:

1. Be enrolled in and completing 8 classes throughout the semester.
2. Meet KSHSAA and USD 249 eligibility requirements each semester.

3. Meet weekly eligibility requirements as stated in the FJH and/or FHS Student Handbook.
4. Participate in the USD 249 random drug testing program throughout the school year.

VIRTUAL STUDENTS:

Students wishing to attend and complete their education through the online program through Greenbush Virtual Academy need to contact the building principal during the enrollment process. This must be done each year the student is enrolled at FHS.

STUDENT INCENTIVE PROGRAM:

Students meeting the following criteria may be exempt from Friday seminar (exemption is determined on a weekly basis):

- No grades lower than 70% in all classes. Grade report will be run Wednesday morning prior to the Friday exemption. Students who do not meet the criteria at that time (Wednesday) will not be exempt.
- No absences or tardies that week.
- No unexcused absences.
- No office referrals that result in a detention that week. All detentions must be served during the assigned time. Students are not exempt if they have an overdue detention.
- Students receiving an ISS or OSS will not be exempt for the remainder of the semester.
- Any student who has been determined to be one of the following: (1) has a physical or mental impairment that substantially limits one or more major life activities; or (2) has a record of such an impairment; or (3) be regarded as having such an impairment will be eligible for Friday seminar exemption.

COMPREHENSIVE EXAMINATIONS:

Comprehensive examinations will be given to all students at least once each semester. These tests will allow teachers to assess student progress while giving the student the experience of taking a comprehensive exam. The exams will count for up to 20% of the student's final grade.

WITHDRAWAL FROM SCHOOL:

All student withdrawals will be initiated in the office. The parent or guardian of the student withdrawing will need to contact the school counselor about their student's intention of withdrawing from school. The counselor will provide the necessary material to begin the withdrawal process.

The student will present the forms to each of his/her teachers. The teacher will secure textbooks and any other school equipment which has been checked out to the student, record the student's grade as of the withdrawal date, and initial the forms. The student will check in all materials and clear all fines with the librarian and cafeteria. After the withdrawal forms have been initialed by the appropriate persons, the student will turn the forms into the office.

Students that have completed the necessary withdrawal procedure will have their records sent to the new school they will be attending. Students who leave school without proper clearance will not receive a copy of their transcript until all obligations are satisfied.

TRANSCRIPTS:

A transcript of all academic work attempted by the student will be kept in the office. Copies of transcripts for students who have not cleared all financial obligations with Frontenac High School will not be sent. The original transcript is kept in the office at all times and is not accessible to any person without the consent of the student.

MISCELLANEOUS INFORMATION

ATTENDANCE POLICY:

On the day that a student is absent, the parent must call the high school office by 10:00 a.m. and state the reason for the absence. All absences must be cleared. Failure to do so will result in the absence being unexcused. A parent or guardian will still need to call in and verify the absence of a student who is 18 years old, or older. The principal will determine if an absence is excused or unexcused.

Students with more than 10 absences per semester must have a doctor's note for any future absences.

Excused/Unexcused Absences:

The definition of "excused absence" includes the following:

- Personal illness;
- Health-related treatment, examination, or recuperation;
- Serious illness or death of a member of the family;
- Obligatory religious observances;
- Participation in a district-approved or school sponsored activity or course;
- Participation in competition not sponsored by the school or a family vacation, when prearranged.
- Absences pre arranged by parents and approved by the principal;
- For students who are seniors or juniors in high school, up to two days may be used prior to May 1st of the student's senior year for college visitation if coordinated with the school counselor; and
- Students of active duty military personnel may have additional excused absences at the discretion of the principal for visitations relative to leave or deployment.

All absences which do not fit into one of the above categories would be considered an unexcused absence. A student serving a period of suspension or expulsion from the district shall not be considered inexcusably absent.

All absences that are not school related will result in attendance points and counted toward absence totals.

Students who are engaged in extracurricular activities must be in school as of 11:00 a.m. on the day they are to take part in that activity or event. **EXCEPTION:** In case of illness in the family, a family emergency, a funeral, or documented doctor appointments, the student will be eligible to participate in the activity if that student notifies the principal in advance. This rule also includes practice.

In order to leave the school grounds during the day, the student must:

- Get prior parental approval and approval of an administrator.
- In case of an emergency, check out with permission of an administrator.
- Students may not leave the building without permission of the office. Absences in this instance will be unexcused.
- Sign the check-out sheet in the HS office when leaving or arriving in the middle of the day.

TRUANCY POLICY:

- An employee of the school will be designated to keep a record of attendance and to report trancies. Students who are considered truant by the school will be reported to the County Attorney.
- The statute states that when a child is inexcusably absent for three consecutive school days, five or more school days in any semester, or seven or more in a year, then the child shall be considered to be not attending school as required by law. For purposes of truancy, an unexcused absence for one period is considered a significant part of the school day.
- When a child meets the above-mentioned conditions, the designated person shall serve written notice to the parent or person acting as a parent (i.e., guardian). This notice shall state that continued failure of the child to attend school without a valid excuse will result in a report being made to the County Attorney.

- Extended School Days are considered part of the school day and school year, and unexcused absences in this area will be counted toward truancy.

TARDY POLICY:

- Students will be required to come to the office for a class permit for first block when tardy.
- The only tardies which are excused are those during which the student has had an appointment with a doctor or dentist.
- Any student who comes in after **fifteen minutes** of the block has expired will be counted absent for that period. (For seminar, this is **five minutes** instead of fifteen.)

EXCESSIVE ABSENTEEISM:

It is the shared responsibility of the students and parents to see that students attend school regularly. The intent of this policy is to reduce excessive absenteeism at Frontenac High School.

Any student who accumulates more than fifty (50) attendance points in one semester may be required to obtain doctor's notes stating that the student could not be in school in order to clear future absences. Unexcused absences receive 2 points. per class period, excused absences receive 1 point. per class period, and 3 tardies =1 point. Any absence(s) after the accumulation of fifty (50) attendance points without a valid doctor's note will be considered unexcused, and the student will be required to make up the absence(s) through the office. Failure to make up the unexcused absence(s) may lead to the student being considered truant and reported to the County Attorney.

Fifty (50) attendance points is equivalent to 5 days of unexcused absences for a semester.

FHS MISSING WORK:

- Students are responsible for work missed when absent and should contact teachers before or after school to discuss make-up assignments. Students will be expected to submit missing work within two school days following each day of absence. A zero will be entered after this time period.
- In laboratory classes, special arrangements may need to be made for making up a laboratory activity. Some work cannot be made up because of its nature: guest speaker, demonstrations, or performance.
- Students who will be absent for a family trip, athletic event, etc. are responsible for obtaining the assignment from their instructor in advance. The due date for assignments will remain the same as for other students in the class.
- All late or missing work must be turned into the instructor two class periods before the final is scheduled.

WEEKLY ELIGIBILITY POLICY:

The eligibility policy is to be used in an effort to raise standards and keep more students on a positive path towards graduation.

Basic policy:

- Grades are checked every week. Grades are checked via Power School on Tuesday morning. The student has until the following Tuesday to raise his or her grades to a passing cumulative semester grade. On the second Tuesday, the students will be notified that he/she is ineligible for one week (until the following Tuesday.) These are cumulative semester grades.
- Students must be passing 8 classes. Students not passing 8 classes will be on probation for a period of one week. If student is still not passing 8 classes after the week of probation, they will be ineligible to participate in or attend any extracurricular activities until all grades are passing. This would include athletics, field trips (that are not for a grade), any school sponsored function and any extracurricular activity (dances, prom, senior trip, etc.) that happens after the school day. If an athlete is ineligible the coach may have him or her sit on the bench in street clothes for home events. Ineligible students will not travel with the team. If a student must attend an activity because it is a class requirement, the teacher may have them attend the activity. If the student is still not passing 8 classes at the end of the week, he or

she will remain on the ineligible list until eligibility is reached. Eligibility is determined on Tuesday and is in effect until the following Tuesday. Students with failing grades will lose exempt status for the weeks they are on academic probation.

- Students who fail a class will be ineligible the following semester until academic probation is run during the new semester. This is generally the third Tuesday of the new semester.
- If the student believes that a correctable error has been made, they may talk to the teacher. The teacher may change the grade if an error has been made, thus taking the student off the list and making the student eligible. If a student has completed all work available to raise their grade, the teacher may notify administration that the student has not had an opportunity to raise their grade during the preceding week. High school administration will then decide if the student is eligible.
- Students should not expect work to be graded the day it is turned into the teacher.

ASSIGNMENT TO ACADEMIC ASSISTANCE:

Intervention 1:

At the instructor's discretion, the student will be assigned to come to the instructor's seminar to complete missing or incomplete work, even if the student is exempt. The amount of credit given for the assigned work is up to the individual instructor.

Intervention 2:

If additional time is required, the student will be assigned to Extended School Day/Academic Assistance either before or after school. This time will be used when the student has a large amount of work to do or is behind in several classes. The amount of credit given for the assigned work is up to the individual instructor.

Intervention 3:

If a student fails a required course for the semester, he/she will be assigned to credit recovery. The student will be considered for assignment to the Basic Skills class the next semester.

Assignment to seminar or ESD (Early School Day) for courses required for graduation will take precedence over elective courses.

BUILDING SECURITY:

Everyone shares the responsibility of ensuring the safety of our buildings and grounds. Students can assist in this effort. Safety reminders include:

- Do not block open doors
- Do not allow anyone into the school except through the office.
- All guests must sign in at the office.
- Report any safety concerns to a staff member.

ACCESS TO HIGH SCHOOL BUILDING:

Students may enter the school building at 7:30 A.M.. Students should time their arrival to coincide with this time. Students must leave the building by 3:30 P.M. unless they are under the direct supervision of a faculty member. Students are not to re-enter the building after that time except to participate in or attend a scheduled school activity. After signing out, a student must leave campus.

BACKPACKS & PURSES:

All backpacks and purses are to be left in the student locker. They are not allowed in the classrooms.

Conduct not included or an action involving a combination of offenses may result in consequences that extend beyond this matrix as determined by the school administration. Conversely, extraordinary circumstances where the minimum consequences are judged, by the superintendent or designee, to be manifestly unfair or not in the interest of the district may result in a reduction of the consequences listed, as allowed by law.

CHANGE OF ADDRESS:

Students who have changed their address, telephone number, etc. since enrollment, are asked to notify the office and list the changes as soon as possible. Parents may change their address in PowerSchool.

LOST AND FOUND:

The "lost and found" is located in the school office.

MESSAGES TO STUDENTS:

Messages to students create a disruption to the classroom atmosphere. Only emergency messages or messages from parents will be delivered. Parents are encouraged to request that messages be taken to their children only when necessary. Students will not be allowed to leave class to accept phone calls. Parents should not send text messages to their child during class.

POSTERS:

Only posters concerning school sponsored activities may be displayed. Displaying a poster must have approval of the principal.

SCHOOL DANCES:

While our dances are primarily for our high school students, we realize that there are a few students who wish to bring dates not affiliated with our school. Therefore, these dates must be registered in the office no later than 12:00 noon on the day before the dance. Students must complete the outside date form available at the office. Failure to register out-of-school guests will result in that person not being admitted to the dance. The registration list will be at the entrance to the dance. RULE 52 -- CITIZENSHIP/SPORTSMANSHIP:

Introduction:

The effective American secondary school must support both an academic program and an activities program. We believe that these programs must do more than merely coexist - they must be integrated and support each other in "different" arenas. The concept of "sportsmanship" must be taught, modeled, expected and reinforced in the classroom and in all competitive activities. Therefore, all Kansas State High School Activities Association members stand together in support of the following sportsmanship policy.

Philosophy:

Activities are an important aspect of the total education process in the American schools. They provide an arena for participants to grow, to excel, to understand and to value the concepts of SPORTSMANSHIP and teamwork. They are an opportunity for coaches and school staff to teach and model SPORTSMANSHIP, to build school pride, and to increase student/community involvement; this ultimately translates into improved academic performance.

Activities are also an opportunity for the community to demonstrate its support for the participants and the school, and to model the concepts of SPORTSMANSHIP for our youth as respected representatives of society.
Sportsmanship is good citizenship in action!

**ALL ACTIONS are to be FOR, NOT AGAINST;
POSITIVE, NOT NEGATIVE or DISRESPECTFUL!**

Section 1 - General Regulations (apply to grades 7-12)

Article 1: SPORTSMANSHIP is a general way of thinking and behaving. The following sportsmanship policy items are listed below for clarification:

- a. Be courteous to all (participants, coaches, officials, staff and fans).
- b. Know the rules, abide by and respect the official's decisions.
- c. Win with character and lose with dignity.
- d. Display appreciation for good performance, regardless of the team.
- e. Exercise self-control and reflect positively upon yourself, team and school.
- f. Permit only positive sportsmanlike behavior to reflect on your school or its activities.

Article 2: Enforcement Procedure:

- a. It is encouraged and recommended by the Kansas State High School Activities Association that local boards of education adopt these regulations and reinforce them as indicated herein.
- b. The Executive Board of the Kansas State High School Activities Association shall be responsible for the interpretation of these regulations, including "desirable and unacceptable behavior", and shall publish them in the Association's *Sportsmanship Manual*.

Frontenac High School teams compete in band, debate, forensics, scholars bowl, football, boys' and girls' cross country, boys' and girls' basketball, wrestling, boys' and girls' track, baseball, girls' softball, girls' volleyball, and boys' and girls' golf. All interscholastic athletics are under the jurisdiction of the Kansas State High School Activities Association. We are a member of the CNC League.

Students who participate in athletic competition are representatives of Frontenac High School. Any student who does not reflect acceptance of the responsibility will not be permitted to participate in athletics. These students must display exemplary conduct, not only on the field of athletic competition, but at all times.

Students who fail more than one class the previous semester are not eligible for participation in extra-curricular competition the following semester.

Students who participate in athletics are expected to observe training rules and regulations as established by the head coach in that particular sport. The coaching staff of this school has full Board authority in enforcing these regulations. Flagrant violations of these regulations may result in the student being suspended from all athletic competition for that school year.

ATHLETIC EXPECTATIONS OF STUDENTS:

- Be on time.
- Come prepared to work (practice).
- Respect the facilities
- Respect and take care of school issued equipment.
- Show and address coaches and support people with respect.

This harassment includes, but is not limited to, inappropriate comments, teasing, gossiping, name calling, threats, sexual harassment or physical intimidation (bullying) of another student. This harassment can be verbal, written or electronic.

BULLYING:

The board of education prohibits bullying in any form on school property, in a school vehicle or at a school sponsored activity or event. Bullying means: Any intentional gesture or any intentional written, verbal, electronic or physical act or threat that is sufficiently severe, persistent or pervasive that it creates an intimidating, threatening or abusive educational environment for a student or staff member that a reasonable person, under the circumstances, knows or should know will have the effect of:

Retaliation against a victim, good faith reporter, or a witness to bullying is prohibited.

The school district may take into account the following factors: the ages of the parties involved; the developmental and maturity levels, special education needs of the parties involved, and the severity of the behavior.

Additionally, bullying means any form of intimidation or harassment prohibited by the board of education of the

school district in policies concerning bullying adopted pursuant to K.S.A. 72-8256 or subsection (e) of K.S.A. 72-8205, and amendments thereto. USD 249 will not tolerate these actions by students or staff.

As appropriate, reports to local law enforcement will be filed to report criminal bullying behaviors.

Initiation activities are not permitted at school. This practice can lead to physical injury and serves no educational purpose. Anyone found to be in violation of this prohibition may be subject to disciplinary action, up to and including suspension or expulsion.

RULES AND REGULATIONS:

Every organization operates according to certain rules and regulations. Frontenac High School is no exception, and the following guidelines are offered to help students become aware of the standard of conduct which is expected of students at FHS. The pattern of behavior outlined below is by no means complete, because the majority of students at this school have a self-imposed pattern of behavior which makes them valuable citizens. These students are responsible for giving few, if any, written rules to guide them. For the betterment of themselves and the Raider reputation, all students at FHS are encouraged to step up to this level of personal behavior. These rules and regulations apply while students are in attendance at school, in transit by school transportation, at school activities, or under the supervision of the school.

TEACHER AUTHORITY:

Each teacher has the responsibility and the authority to establish a classroom atmosphere which is conducive to learning. Whenever a student is creating a disturbance, the teacher should make every reasonable attempt to correct the student's behavior. If the student fails to respond to the teacher's directives, the student will be sent to the administrative office to confer with the administration. Failure to report to the office will result in suspension from school. If a student is asked to leave class, it is his/her responsibility to go directly to the principal's office. Students have a responsibility to follow the instructions of all teachers, even if they do not have a class from them.

OUT-OF-DISTRICT STUDENTS:

The Board of Education may permit students who live in a neighboring school district to enroll in Frontenac school. Consideration may be given to student enrollment, program capacity, and facility space in the determination of whether to allow out-of-district students to enroll. The District has also set standards of behavior and performance for out-of-district students. To help recruit and retain quality staff, employees who live outside the district may enroll their children in the district.

Transfers in Grades 1-12:

Any student wishing to attend Frontenac Schools who lives in another district must apply with the building principal. The principal will review the **academic, attendance, and discipline** records of the students that have been established in prior schools attended and make a recommendation to the Board of Education to accept or deny the request. After reviewing the records and the conferences held with the parent or guardian and student, a decision will be made by the Board to accept or deny the request.

Continuing Enrollment:

Out-of-District students are expected to:

1. Earn satisfactory grades (Minimum 2.0 GPA) and be on track to graduate.
2. Maintain good attendance (less than 5% unexcused absence).
3. Sustain an acceptable discipline record, including:
 - a. No out-of-school suspensions or expulsions.
 - b. No repeated referrals for a disruption that impedes the learning of other students. This does not include referrals for poor or incomplete school work or missing extended school day assignments.

Failure to meet these requirements shall result in a review of the student's status at the end of the school year. Principals shall review academic progress and recommend to the Board of Education that the student's non resident status be continued or rescinded. Parents shall be informed of a change in their status by June 15.

Providing False Information:

The actual residency of the parents or guardians of the student with whom the student actually resides determine legal residence. Knowingly providing false information regarding residence will be grounds for immediate dismissal.

STUDENT TRANSFER FROM NON-ACCREDITED SCHOOLS:

Final placement shall be made by the principal based on the student's documented past educational experiences and performances on tests administered to determine grade level placement.

Lockers, desks and such other storage areas and the contents thereof shall be subjected to inspection and search by school officials at any time without prior notice if there is reasonable suspicion that such will produce evidence of violations of law or of school rules, or that lockers may contain property which school officials reasonably believe may be intended for use in a manner disruptive to the orderly operation of the school. Students shall have no expectation of privacy in school lockers, desks, and other storage areas.

SEARCH OF THE PERSON OR OF PROPERTY IN POSSESSION OF STUDENTS:

School officials may search students or personal property in their possession or under their control, including motor vehicles on school grounds, if there are reasonable grounds to suspect that the search will produce evidence of violations of law or school rules. Materials, book bags, coats, etc. found on school property may be subject to search.

USE OF TRAINED DOGS TO SEARCH:

At the request of the administration, law enforcement officers or licensed private agencies may use trained dogs on school premises to identify student property which may contain illegal or illicit materials and to determine whether materials are present which may threaten the general health, welfare and safety of students and/or district employees.

Student dress should not be distracting or indecent to the extent that it interferes with the learning responsibilities of that or other students. Students are not to wear hats or other head coverings. Standards of grooming and dress may be prescribed for participation in extracurricular activities. Statement of Purpose and Intent:

It is the desire of the board, administration, and staff that every student in the district refrains from using, possessing, or distributing illegal or performance-enhancing drugs and/or alcohol. The disciplinary actions triggered by this policy relate solely to limiting the opportunity of any student in violation of this policy to participate in extracurricular activities. This policy is intended to supplement and complement all other policies, rules, and regulations of the district regarding possession and/or use of illegal drugs and alcohol and does not limit the district's authority to enforce the provisions of other relevant policies or take disciplinary actions authorized thereby.

Participation in school sponsored extracurricular activities at the district is a privilege. Accordingly, students in extracurricular activities carry a responsibility to themselves, their fellow students, their parents, and their school to conduct themselves in accordance with a high standard of conduct, which requires avoiding the use or possession of illegal or performance-enhancing drugs and alcohol.

The purpose of this policy is to prevent illegal or performance-enhancing drug and alcohol use; to educate student participants regarding serious physical, mental, and emotional harm caused by drug and alcohol use; to prevent injury, illness, and harm that is a potential result of drug and alcohol use; and to strive within the district for an environment free of such use and abuse.

The sanctions of this policy solely limit the opportunity of any student found to be in violation of this policy to participate in extracurricular activities. There will be no academic sanction for violation of this policy.

The district has adopted this policy for use by all students participating in extracurricular activities in grades 7-12.

Definitions:

Extracurricular Activities means those school sponsored student activities that take place outside the regular course of study in school. Such activities include all district sponsored activities including, but not limited to,

school dances and prom, interscholastic sports teams, cheerleading, and dance team activities.

Drug Use Test means a scientifically substantiated method to test for the presence of illegal or performance enhancing drugs, alcohol, or the metabolites thereof in a person's urine or saliva.

Illegal Drugs means any substance which an individual may not legally sell, possess, use, distribute, or purchase under either Federal or Kansas Law. For the purposes of this policy, "illegal drugs" includes, but is not limited to, all scheduled drugs as defined by Kansas Law, all prescription drugs obtained without authorization, and all prescribed and over-the-counter drugs being used for an abusive purpose.

Performance-Enhancing Drugs includes anabolic steroids and any other natural or synthetic substance used to increase muscle mass, strength, endurance, speed, or other athletic ability. The term "Performance-Enhancing Drugs" does not include dietary or nutritional supplements such as vitamins, minerals, and proteins that can be lawfully purchased in over-the-counter transactions.

Positive when referring to a drug test administered under this policy means a toxicological test result which is considered to demonstrate the presence of an illegal or a performance-enhancing drug or the metabolites thereof using the standards customarily established by the testing laboratory administering the drug use test. "Positive" when referring to an alcohol test administered under this policy means a breathalyzer test result that is considered to demonstrate the presence of alcohol in a student participant's system.

Reasonable Suspicion means a school employee's suspicion based on specific personal observations concerning the appearance, speech, or behavior of a participating student, and reasonable inferences drawn from those observations in the light of experience. Information provided by a reliable source, if based on personal knowledge, shall constitute reasonable suspicion. In the context of performance-enhancing drugs, reasonable suspicion could also be based on unusual increases in size, strength, weight, or other athletic abilities. All observations, sources, and personal information will be weighed by school employees on a case-by-case basis.

KSHSAA is the Kansas State High School Activities Association of which the district is a participating member.

Procedure:

Each student in extracurricular activities shall receive copies of the Student Extracurricular Activities Drug/Alcohol Testing Consent Form, which shall be read, signed, and dated by the student, parent and/or guardian. Students must turn in a completed Student Extracurricular Activities Testing Consent Form to the school office before the student will be allowed to practice or participate in any extracurricular activities. Students must turn in their completed form by the first Friday of the school year. Any student who does not turn in the required form within the aforementioned timeframe will not be eligible to participate in any extracurricular activities. Transfer students will be allowed to complete the aforementioned form at the time of enrollment and will be placed in the testing pool within one week of their enrollment date. If a student opts out, they have opted out for the entire school year.

Students will be required to provide urine, saliva, or breath samples for the purpose of drug and/or alcohol testing as follows:

On a random selection basis, from a list of all students in the testing pool, names of 16 participants will be drawn at random to provide a urine sample every thirty days during the school year. Names previously chosen will be placed back in the pool for the possibility of random selection at a later time.

1. At any time requested by the administration, based on reasonable suspicion that the student currently participating in extracurricular activities is under the influence of, using, distributing, selling, or in possession of illegal or performance-enhancing drugs and/or alcohol.
2. Any drug use test required by the district under the terms of this policy will be administered by or at the direction of a professional laboratory chosen by the district, using scientifically validated toxicological methods. The professional laboratory shall be required to have detailed written specifications to assure

chain of custody of the specimens, proper laboratory control, and scientific testing.

Any breathalyzer machine utilized under authority of this policy shall be frequently recalibrated and will be administered either by a school employee trained in the machine's use or a law enforcement officer at the request of the district administration.

All aspects of the drug use-testing program, including the taking of samples, will be conducted so as to safeguard the personal and privacy rights of students to the maximum extent possible. The test sample shall be obtained in a manner designed to minimize intrusiveness of the procedure. In particular, the sample must be collected in a restroom or other private facility behind a closed door. The principal shall designate a drug laboratory employee, a coach, or school employee of the same gender as the student to accompany the student to a restroom or other private facility for collection of the sample. The monitor shall not observe the student while any urine sample is being produced, but the monitor shall be present outside the stall to listen for the normal sounds of urination in order to guard against tampered samples and to ensure an accurate chain of custody. If at any time a student is found to be tampering with the sample, the monitor may stop the procedure and inform the principal, who will then determine if a saliva sample should be obtained as well.

If the initial drug test (taken by method other than by breathalyzer) is positive, the initial test result will then be subject to confirmation by a second and different test of the same sample. In order to keep the results of the initial testing confidential, the school district may also choose a certain number of samples for a confirmation test. A specimen shall not be reported positive unless the second test run results in a positive reading for the presence of an illegal or performance-enhancing drug, alcohol, or the metabolites thereof.

If the test for any student has a positive result, the laboratory will contact the parents or guardians and solicit any information on medication that would create a positive test result. A medical review officer, provided by the testing company, will confirm the positive result and contact the principal with the results. Once a positive result is determined, the student will become ineligible to participate, travel, or compete in extracurricular activities for a duration specified as follows. To offer students healthy alternatives, students will be able and are expected to practice with the team during the period of ineligibility unless otherwise specified below.

Upon a positive test result, the principal will contact the student and the parent or guardian of the student within two (2) school days and will schedule a conference. At the conference, the principal will solicit any explanation of the positive result.

If the student asserts that the positive test results are caused by something other than consumption of an illegal drug, performance-enhancing drug, or alcohol by the student, then the student will be given an opportunity to present evidence of such to the principal or the principal's designee. The district will rely on the opinion of the laboratory that performed the confirmation test in determining whether the positive test result was produced by method other than consumption of an illegal drug, performance-enhancing drug, or alcohol. The principal will make the eligibility decision within five working days.

A decision to designate the student as ineligible under this policy may be appealed in writing to the district's superintendent within five days. The superintendent will make a written decision available to the student and the student's parent(s) or guardian within five working days. The ineligibility will remain in force throughout this appeal as well.

The decision of the superintendent may be appealed in writing to the Board of Education within five working days of receipt of the Superintendent's decision on the issue. The district's rules and regulations will be followed in the case of an appeal to the Board of Education, although preliminary stages of the appeal shall not necessitate repeating to be in accordance with other policies for the purposes of appeal pursuant to this policy.

A student that has tested positive for illegal or performance-enhancing drugs will be required to undergo one or more additional drug use tests to confirm that the student is no longer using illegal drugs or performance

enhancing drugs before he/she may rejoin an activity. The district will rely on the opinion of the laboratory that performed or analyzed the additional drug use test in determining whether a positive result in the additional drug test was produced by illegal or performance-enhancing drugs used by the student that caused the first positive result or by more recent use.

All parents or guardians of students who test negative for illegal drugs or performance-enhancing drugs in the initial screening will be contacted by personnel of the district within five working days after testing.

Violation:

Any student who tests positive in a drug/alcohol use test under this policy shall be subject to the following restrictions:

Any student that “self-reports” the use of drugs or alcohol prior to any testing shall be suspended from participation in activities or travel for five (5) school days, which shall include suspension from any activities falling on evenings of such school days or weekends falling between school days in which a suspension is to be served. The principal will notify parents and appropriate sponsors of such suspension of eligibility.

For the first offense, the student shall be suspended from participation in all extracurricular activities, including all performances and competitions, for ten (10) school days, which shall include suspension from any activities falling on evenings of such school days or weekends falling between school days in which a suspension is to be served. During this time, it is recommended that the parent/guardian obtain a substance abuse evaluation and education/counseling for the student. Local law enforcement shall be notified.

For the second offense, the student shall be suspended from participation in all extracurricular activities including all practices, meetings, performances, activities, and competitions for thirty (30) school days, which shall include suspension from any activities falling on evenings of such school days or weekends falling between schools days in which a suspension is to be served. If the student and/or parent/guardian can provide proof of enrollment and regular attendance at a school approved substance abuse program, the suspension will be reduced to twenty (20) school days. Local law enforcement shall be notified.

For the third offense, the student shall be suspended from participation in all extracurricular activities including all meetings, practices, performances, and competitions for ninety (90) days, which shall include suspension from any activities falling on evenings of such school days or weekends falling between schools days in which a suspension is to be served. Local law enforcement shall be notified.

Refusal to Submit to Drug Use Test:

If an extracurricular participant refuses to submit to a drug or alcohol use test authorized under this policy, such refusal shall be considered a “positive” result for drugs or alcohol and subject to the appropriate suspension as stated herein.

Transfer Students:

Any student transferring to Frontenac Schools who wishes to participate in extracurricular and/or co-curricular activities must have a signed “Student Drug Testing Consent Form” on file with the principal’s office within five (5) school days of his/her initial enrollment. Additionally, any transfer student who has failed a drug screening in a previous school district enters Frontenac schools with a similar record.

Disclaimer:

The Frontenac USD 249 Student Drug Testing Policy does not supersede the student handbooks of Frontenac High School or Frontenac Junior High School with regard to students found to be in possession of, using, providing, or under the influence of illegal substances or alcohol while on school property or at a school activity (home or away). Therefore, a student who violates the policy, as set forth in the student handbooks should expect further consequences as deemed appropriate by the building principal.

Mechanical Restraint means any device or object used to limit a student's movement.

Parent means: (1) a natural parent; (2) an adoptive parent; (3) a person acting as a parent as defined in K.S.A. 72-1046(d)(2), and amendments thereto; (4) a legal guardian; (5) an education advocate for a student with an exceptionality; (6) a foster parent, unless the student is a child with an exceptionality; or (7) a student who has reached the age of majority or is an emancipated minor.

Physical Escort means the temporary touching or holding the hand, wrist, arm, shoulder, or back of a student who is acting out for the purpose of inducing the student to walk to a safe location.

Physical Restraint means bodily force used to substantially limit a student's movement, except that consensual, solicited, or unintentional contact and contact to provide comfort, assistance, or instruction shall not be deemed to be physical restraint.

School resource officer means a law enforcement officer or police officer employed by a local law enforcement agency who is assigned to a district through an agreement between the local law enforcement agency and the district.

School security officer means a person who is employed by a board of education of any school district for the purpose of aiding and supplementing state and local law enforcement agencies in which the school district is located, but is not a law enforcement officer or police officer.

Seclusion means placement of a student in a location where all of the following conditions are met: (1) the student is placed in an enclosed area by school personnel; (2) the student is purposefully isolated from adults and peers; and (3) the student is prevented from leaving, or reasonably believes that he or she will be prevented from leaving the enclosed area.

Time-out means a behavioral intervention in which a student is temporarily removed from a learning activity without being secluded.

Prohibited Types of Restraint:

All staff members are prohibited from engaging in the following actions with all students:

- Using face-down (prone) physical restraint;
- Using face-up (supine) physical restraint;
- Using physical restraint that obstructs the student's airway;
- Using physical restraint that impacts a student's primary mode of communication;
- Using chemical restraint, except as prescribed treatments for a student's medical or psychiatric condition by a person appropriately licensed to issue such treatments; and
- Use of mechanical restraint, *except*:
 - Protective or stabilizing devices required by law or used in accordance with an order from a person appropriately licensed to issue the order for the device;
 - Any device used by a certified law enforcement officer to carry out law enforcement duties; or

- Seatbelts and other safety equipment when used to secure students during transportation.

Use of Emergency Safety Interventions:

ESI shall be used only when a student presents a reasonable and immediate danger of physical harm to such student or others with the present ability to effect such physical harm. Less restrictive alternatives to ESI, such as positive behavior interventions support, shall be deemed inappropriate or ineffective under the circumstances by the school employee witnessing the student's behavior prior to the use of any ESI. The use of ESI shall cease as soon as the immediate danger of physical harm ceases to exist. Violent action that is destructive of property may necessitate the use of an ESI. Use of an ESI for purposes of discipline, punishment, or for the convenience of a school employee shall not meet the standard of immediate danger of physical harm.

ESI Restrictions:

A student shall not be subjected to ESI if the student is known to have a medical condition that could put the student in mental or physical danger as a result of ESI. The existence of such medical condition must be indicated in a written statement from the student's licensed health care provider, a copy of which has been provided to the school and placed in the student's file.

Such written statement shall include an explanation of the student's diagnosis, a list of any reasons why ESI would put the student in mental or physical danger, and any suggested alternatives to ESI. Notwithstanding the provisions of this subsection, a student may be subjected to ESI, if not subjecting the student to ESI would result in significant physical harm to the student or others.

Use of Seclusion:

When a student is placed in seclusion, a school employee shall be able to see and hear the student at all times.

All seclusion rooms equipped with a locking door shall be designed to ensure that the lock automatically disengages when the school employee viewing the student walks away from the seclusion room, or in case of emergency, such as fire or severe weather.

A seclusion room shall be a safe place with proportional and similar characteristics as other rooms where students frequent. Such room shall be free of any condition that could be a danger to the student, well-ventilated, and sufficiently lighted.

Training:

All staff members shall be trained regarding the use of positive behavioral intervention strategies, de-escalation techniques, and prevention techniques. Such training shall be consistent with nationally recognized training programs on ESI. The intensity of the training provided will depend upon the employee's position. Administrators, licensed staff members, and other staff deemed most likely to need to restrain a student will be

35

provided more intense training than staff who do not work directly with students in the classroom. District and building administration shall make the determination of the intensity of training required by each position.

Each school building shall maintain written or electronic documentation regarding the training that was provided and a list of participants, which shall be made available for inspection by the state board of education upon request.

Notification and Documentation:

The principal or designee shall notify the parent the same day as an incident. The same-day notification requirement of this subsection shall be deemed satisfied if the school attempts at least two methods of contacting the parent. A parent may designate a preferred method of contact to receive the same-day notification. Also, a parent may agree, in writing, to receive only one same-day notification from the school for multiple incidents occurring on the same day.

Documentation of the ESI used shall be completed and provided to the student's parents no later than the school day following the day of the incident. Such written documentation shall include: (A) The events leading up to the incident; (B) student behaviors that necessitated the ESI; (C) steps taken to transition the student back into the educational setting; (D) the date and time the incident occurred, the type of ESI used, the duration of the ESI, and the school personnel who used or supervised the ESI; (E) space or an additional form for parents to provide feedback or comments to the school regarding the incident; (F) a statement that invites and strongly encourages parents to schedule a meeting to discuss the incident and how to prevent future incidents; and (G) email and phone information for the parent to contact the school to schedule the ESI meeting. Schools may group incidents together when documenting the items in subparagraphs (A), (B) and (C) if the triggering issue necessitating the ESIs is the same.

The parent shall be provided the following information after the first and each subsequent incident during each school year: (1) a copy of this policy which indicates when ESI can be used; (2) a flyer on the parent's rights; (3) information on the parent's right to file a complaint through the local dispute resolution process (which is set forth in this policy) and the complaint process of the state board of education; and (4) information that will assist the parent in navigating the complaint process, including contact information for Families Together and the Disability Rights Center of Kansas. Upon the first occurrence of an incident of ESI, the foregoing information shall be provided in printed form or, upon the parent's written request, by email. Upon the occurrence of a second or subsequent incident, the parent shall be provided with a full and direct website address containing such information.

Law Enforcement, School Resource, and Campus Security Officers:

Campus police officers and school resource officers shall be exempt from the requirements of this policy when engaged in an activity that has a legitimate law enforcement purpose. School security officers shall not be exempt from the requirements of this policy.

If a school is aware that a law enforcement officer or school resource officer has used seclusion, physical restraint, or mechanical restraint on a student, the school shall notify the parent the same day using the parent's preferred method of contact. A school shall not be required to provide written documentation to a parent, as set forth above, regarding law enforcement use of an emergency safety intervention, or report to the state department of education any law enforcement use of an emergency safety intervention. For purposes of this subsection, mechanical restraint includes, but is not limited to, the use of handcuffs.

Documentation of ESI Incidents:

Except as specified above with regard to law enforcement or school resource officer use of emergency safety interventions, each building shall maintain documentation any time ESI is used with a student. Such documentation must include all of the following:

- Date and time of the ESI,
- Type of ESI,
- Length of time the ESI was used,
- School personnel who participated in or supervised the ESI,
- Whether the student had an individualized education program at the time of the incident,
- Whether the student had a section 504 plan at the time of the incident, and whether the student had a behavior intervention plan at the time of the incident.

All such documentation shall be provided to the building principal, who shall be responsible for providing copies of such documentation to the superintendent or the superintendent's designee on at least a biannual basis. At least once per school year, each building principal or designee shall review the documentation of ESI incidents with appropriate staff members to consider the appropriateness of the use of ESI in those instances.

Reporting Data:

District administration shall report ESI data to the state department of education as required.

Parent Right to Meeting on ESI Use:

After each incident, a parent may request a meeting with the school to discuss and debrief the incident. A parent may request such meeting verbally, in writing, or by electronic means. A school shall hold a meeting requested under this subsection within 10 school days of the parent's request. The focus of any such meeting shall be to discuss proactive ways to prevent the need for emergency safety interventions and to reduce incidents in the future.

For a student with an IEP or a Section 504 plan, such student's IEP team or Section 504 plan team shall discuss the incident and consider the need to conduct a functional behavioral assessment, develop a behavior intervention plan, or amend the behavior intervention plan if already in existence.

For a student with a section 504 plan, such student's section 504 plan team shall discuss and consider the need for a special education evaluation. For students who have an individualized education program and are placed in a private school by a parent, a meeting called under this subsection shall include the parent and the private school, who shall consider whether the parent should request an individualized education program team meeting. If the parent requests an individualized education program team meeting, the private school shall help facilitate such meeting.

For a student without an IEP or Section 504 plan, the school staff and the parent shall discuss the incident and consider the appropriateness of a referral for a special education evaluation, the need for a functional behavioral assessment, or the need for a behavior intervention plan. Any such meeting shall include the student's parent, a school administrator for the school the student attends, one of the student's teachers, a school employee involved in the incident, and any other school employees designated by the school administrator as appropriate for such meeting.

The student who is the subject of such meetings shall be invited to attend the meeting at the discretion of the parent. The time for calling such a meeting may be extended beyond the 10-day limit if the parent of the student is unable to attend within that time period. Nothing in this section shall be construed to prohibit the development and implementation of a functional behavior assessment or a behavior intervention plan for any student if such student would benefit from such measures.

Local Dispute Resolution Process:

If a parent believes that an emergency safety intervention has been used on the parent's child in violation of state law or board policy, the parent may file a complaint as specified below.

The board of education encourages parents to attempt to resolve issues relating to the use of ESI informally with the building principal and/or the superintendent before filing a formal complaint with the board. Once an informal complaint is received, the administrator handling such complaint shall investigate such matter, as deemed appropriate by the administrator. In the event that the complaint is resolved informally, the administrator must provide a written report of the informal resolution to the superintendent and the parents and retain a copy of the report at the school. The superintendent will share the informal resolution with the board of education and provide a copy to the state department of education.

If the issues are not resolved informally with the building principal and/or the superintendent, the parents may submit a formal written complaint to the board of education by providing a copy of the complaint to the clerk of the board and the superintendent within thirty (30) days after the parent is informed of the incident.

Upon receipt of a formal written complaint, the board president shall assign an investigator to review the complaint and report findings to the board as a whole. Such investigator may be a board member, a school administrator selected by the board, or a board attorney. Such investigator shall be informed of the obligation to maintain confidentiality of student records and shall report the findings of fact and recommended corrective action, if any, to the board in executive session.

Any such investigation must be completed within thirty (30) days of receipt of the formal written complaint by the board clerk and superintendent. On or before the 30th day after receipt of the written complaint, the board shall adopt written findings of fact and, if necessary, appropriate corrective action. A copy of the written findings of fact and any corrective action adopted by the board shall only be provided to the parents, the school, and the state department of education and shall be mailed to the parents and the state department within 30 days of the board's receipt of the formal complaint.

If desired, a parent may file a complaint under the state board of education administrative review process within thirty (30) days from the date a final decision is issued pursuant to the local dispute resolution process.
